

7.2 This interface certification is based upon the standardized SAP integration scenario:

BC-SNC NT 4.0 - Secure Network Communication, Windows NT R/3 4.0

For the interface certification of a particular Interface Software and a particular technical environment SAP will provide, for a fee of **7,000 US Dollars** to Vendor, the SAP test environment and personnel necessary to perform 1 day of interface consulting services and 1 day of interface certification test services.

In the event these day periods are exceeded, SAP will charge Vendor at its then current consulting rates for personnel involved in the interface consulting and/or interface certification testing. The foregoing fee does not include subsistence expenses and/or travel that may be necessary or specifically agreed upon, which will result in an additional charge to Vendor.

The interface certification test will be based on a standardized SAP Interface and the related SAP Interface documentation.

7.3 For an additional interface certification in a different technical environment (e.g. XML, BAPI) for a particular release of the SAP Interface and the Software as well as a particular release of the Third-Party Software Product and the Interface Software, SAP will provide, for a fee of **1,900 US Dollars** to Vendor, the SAP test environment and personnel necessary to perform 1 day of interface certification test services. SAP recommends to perform 1 additional day of technical consulting for the new environment. SAP will charge Vendor at its then current consulting rates for this day of consulting. A prerequisite for this additional interface certification is that the combination of the particular release of the SAP Interface and the Software and the particular release of the Third-Party Software Product and the Interface Software has been already successfully certified.

7.4 Any fees and charges set forth in this Agreement, in any Appendices or Exhibits to this Agreement, and in SAP's current List of Prices do not include federal, state, or local sales, use, property, excise, service or similar taxes ("Taxes") now or hereafter levied, all of which shall be at Vendor's account. If SAP is required to pay Taxes (excepting taxes on SAP's income), SAP shall invoice Vendor for such Taxes. Vendor hereby agrees to indemnify SAP for and hold it harmless from any Taxes and related costs, interest and penalties paid or payable by SAP.

Terms of payment of SAP's invoice(s) are net thirty (30) days after receipt.

Fees and conditions are valid for SAP's facility in Palo Alto, CA. They can vary between SAP facilities due to regional differences and local currencies. Fees and conditions are subject to change at SAP's sole discretion. The current fees and conditions can be obtained from SAP.

7.5 SAP recommends that the personnel of Vendor receive the standard software training offered by SAP. Vendor shall be charged the commonly published costs of this training.

7.6 The interface certification fee set forth in this Agreement will become due with affixation of signatures under this Agreement and SAP shall invoice Vendor accordingly. Vendor has a period of one (1) year from the date this Agreement was signed by both parties to complete the interface certification process for the Interface Software. In the event Vendor fails to do so, Vendor agrees that this Agreement shall terminate. No refund of the interface certification fee shall be granted in this event.
